THE AMNESTY QUESTION. WASHINGTON, February 27. Washington, February 27.

The sub-committee on reconstruction on the removal of political disabilities, composed of Messrs. Porter, Lawrence and Beck, decided Staturday that it would be useless to report a bill upon the subject at this late stage of the session. Porter expressed himself in favor of the removal of the disabilities from all persons who have given outdered of accounts the

of the disabilities from all persons who have given evidence of accepting the situation in good faith, which he estimated would embrace several thousand of the leading citizens of the South. He said he was for a thorough and complete amnesty as soon as laws were passed by Congress securing civil and political rights and personal safety of the loyal people in the Southern States. The question of a general amnesty will be brought up at the beginning of the next session. THAT MILLION TAX DECISION.

Commissioner Pleasonton will proba-bly give his decision on the tax on the New York Central Scrip dividend Tucs-lay. As this decision involves \$1,250,-500, it is looked for with great interest. The Conference Committee on the Ad-miral bill will not be able to agree. The Senate Conference is not willing to con-pent to the agreedment reducing the num-

ent to the amendment reducing the numper of Rear-Admirals and Commodores oer or rear-admirans and commonores as fast as vacancies occur. Senator Cragin says he tkinks some reduction ought to be made, but prefers that no action should be taken until next winter, when the Senate Naval Committee, of which he is chairman, will prepare a bill reorganizing the navy weeding out the incomizing the navy, weeding out the incom-petent, and reducing the number of high

grades. A new conference committee will probably be appointed. THE OLD GRANT-HANCOCK QUARREL.

The volumninous correspondence be-tween Generals Hancock and Sherman in reference to the formers objection to an assignment he thought, unsuited to his rank, is published. It appears that Gen. Grant overruled certain orders of Han ock at New Orleans, in consequer cock at New Orleans, in consequence of which Hancock assumed towards Grant a formal if not untriendly air when they next met in Washington. That on the death of Gen, Thomas, Maj. Gen. Scho-field, the junior officer of that grade in the army, was assigned to the command of the military division of the Pacific. To this Gen. Hancock took exception, and so intormed the General of the army, inquir-

ENGLISH AND CANADIAN RELATIONS. New York, Feb. 27.

A Washington dispatch to the Herald says that a growing scatiment of apprehension as to the result of the High Commission prevails in that city. It is believed that Sir John Macdonald is preparing his people for a great discount of their fahing demands. His announcement in the Dominion Parliament is regarded as an abandonment of the headland claim, and his silence as to the presentation of the Canadian claims for Fenian raids is regarded as a cqually significant. It is well regarded as equally significant. It is well understood that the British government understood that the British government can present no claims in connection with the Fenian raids, she having already repeatedly thanked our government for its course in stopping these invasions. It seems most likely that difficulties will commence outside of Canada matters, and there is no reason to blieve that England is ver necessary to present the present of th land is yet prepared to recede from her po-sition on the Alabama question, and there fore there is but little hope that an accept able basis can be reached.

Provisions—Unchanged

Permit me through your columns to call attention to a suggestion that has been made, that the Wheeling and Toledo and Marrietta and Pittsburgh railroads could, to mutual advantage, form a junction at this place, which is on Big Stillwater creek, seventeen miles south of Bennison. In approaching this point the general direction of the W. and T. road would be north of west; that of the M. and prefer their last and prefer their beautiful properties of the mean for them has an directly upon their found favor with the would be north of west, that of the M. and and purely upon their own merits, they be east of north; so that by their union they would form nearly a monary, Bronchial, or Asthmatic congright angle, and therefore would not run near enough to each other to conflict in interest before reaching this vicinity; but theyound here it would be different. The M. & P. will pass by this point, or a few miles to the westward, and if for the W. & T. road the Pinshing or Athens route is chosen they will meet a few miles below took beautiful."

near to each other as to leave for eithe oad little more than the trade from on

struction, a most important consideration or, as the Pan Handle road is approached tor, as the ran handle road is approached, the people, enjoying already the advantages of a railroad, will be slow to assist in building another. And it is improbable that the trade of both roads will be so great as to require more than one track, at least for many years. The route from here, which is down the broad valley of the Stillwater, is claimed by enley of the Stillwater, is clain gineers to be a good one. Mr. De Hast who surveyed it some years ago, asserted that it was the shortest track in propor-

that it was the shortest track in proper tion to the length of the travelled roat that he ever surveyed.

It may be considered certain that the M. & P. road will be built, as it is already nearly graded to Caldwell, a distance of thirty-four miles, on more than half of which the cars are running. This has een done within the past year. The unds for the completion of the entire road funds for the completion of the entire road are assured, and will be forthcoming as soon as the grading is done; and the President, Mr. Cutler, is a man not new to the business, and will continue the work with all needful dispatch.

I do not pretend to understand the hidden ways of railroad men, but to a casual observer the Flushing route would seem to be the most advantageous. That village is twelve miles from Cadiz, and

the main stream till it approaches Denu son. In the whole region now agitated about this Northwestern road, no other line will traverse so long a stretch of country equally distant from and destitute of railroad facilities. John S. Bally.

street, yesterday morning, will probably reach three thousand dollars. The lamage to the building is entirely covered by insurance. Winship & Co. had a mantity of china ware, crockery, &c., in the third story, valued at from four to five hundred dollars, which was destroyed, but ot insured. The three buildings, occu pied respectively by Chas. II. The decline for the week is more than ½c and the stock can't all be sold. Besides freshlots there are three hundred State cattle. Most sales at 12a134c; only prime reaching to the stock can't all ½a15c for tops; can't can't all ½a15c for tops; can't can't all ½c; 75 of 6½ cwt at 11 a13c; 40 premium 8½ cwt at 14a15c; some thin steers sold at 10c. widow lady who resides in Louisville ot materially injured by the water, although some rope and twine were soak-day. Market slow, but no lower on ded. The dry goods of Simpson & Wilson, next door, were not so badly damaged as was at first supposed, although it is Impossible to tell the exact amount of harn done until the stock can be put in order.

It appears that a cellar door, in the alley in the rear of the building, opening into the basement of Mr. Berry's store, was found open yesterday morning. The door had been securely fastened Saturday night by a short wooden bar; but the bar was

of no use for Mr. Berry to go into busines again, as he would be burned out every time he attempted it.

SAFE! PROFITABLE! PERMANENT!

JAY COOKE & CO.

With the same entire confidence with which we commended Government bonds to Capitalists and People, we now, after the fullest investigation, recommend these Northern Pacific Railroad bonds to our friends and the general public.

GOLD PAINENT.—Both principal and interest approximate a graph paint in the part are payable in American gold coin, at the office of Jay Cooks & Co., New York (1/19—the principal at the end of 30 years, and the interest (at the rate of seven and three-tentles per cepture annum) half-yearly, first of January and July.

unreserved grant of same the conferred upon a great national improvement.

THE MORTGAGE.—The Trustees under the Mortgage, are Mesers, 7. Cooke of Philadelphia, and 4. Edgar Thomson, President of the Peunsylvania Central Railroad Company. They will directly and permanently represent the interests of the First Mortgage boud holders, and are required to see that the proceeds of land soles are used in purchasing and cancelling the boads of the Company if they can be bought before maturity at not more than 10 per cent premium; otherwise the Trustees are to invest the proceeds of land sales in United States Bonds or Real Retate Mortgages for the further security of Northern Pacific bondholders. Also, that they have at all times in their control, as security; at least 500 acres of average land to every \$1,000 of outstanding first mortgage bonds, besides the railroad itself and all its equipments and franchises.

PROPITABLENESN.—Of course nothing can

De saier than the bonds of the United States, but as the Government is no longer a borrower, as the Nation's present work is not that of preserving its existence, but that of DEVELPTING CONTINENT, we remind those who desire to increase their income and obtain a more permanent investment, while still having a perfectly reliable security, that:
